

## An Eye For Danger: Book 1 & 2 (The Goliath Conspiracy Series)

When former war photographer Jules Larson braves a PTSD attack to jog beyond her five-block safety zone in Central Park, she runs right into a murder scene. Taken hostage, Jules provides escape for Sam Fields, an undercover cop desperate to avoid capture by his nemesis and former mentor, Detective Stone McCarthy. Sam cant afford to blow his two-year investigation of Goliath, a band of crooked cops who clean up New York City streets vigilante style. Especially if Stone is one of them. Fighting for underdogs is old habit for Jules, and Sams rough-around-the-edges charm has a way of roping her into helping with his investigation. Though Jules fears Sams violent world will land her in a psych ward--again--three years of self-imposed isolation since her fiances death is a long time to be lonely. And then theres Stone. His park murder investigation keeps leading to Jules door, and hes on the verge of discovering her involvement. Not only might he be crooked, Jules is just the kind of uptown girl Stone covets. Especially if she belongs to Sam. As Goliath closes in on the only surviving witness, Sam and Stone must work together to protect Jules. But Jules cant grow too close to Sam, even when his touch melts her armor, or accept Stones increasing advances, even though hes twice the gentleman Sam is, for fear either man might discover the truth about her fiances accident.
