

I Saw You

Success brought fame. With fame came money. And money brought every single whore to worship at his feet. Chester Green has it all living the coveted life as rocks hottest front man traveling, partying, and in every city, burying himself between the thighs of a groupie or two. He gorged on the perks for more than a decade until life became dull, and the taste of a woman became bland on his tongue. Nothing excited him. Nothing, until the day life literally crashed into him. Arianna Garcia is tough, fiery, and doesn't back down or fall sway to his charms. She isn't a groupie, making the hunt so much harder and the rewards so much sweeter. His money and fame mean nothing to her. All he wanted was to relax and release some pent up tension. Now all he wants is her. The chase is on.
