

## Ties That Bind (Perotti Legends Series Book 1)

Ella McGreavy never really believed the old family legend attached to her inheritance -- an old set of Scottish hand-fasting cords that had been in her family for generations -- but that was before she found herself hand-fasted to her best friend and house-mate, Jake Johnson. Things aren't going so well for her. The man she's pretty sure she's in love with is about to marry someone else and just when she's decided to put a swift end to the upcoming nuptials before there can be any swearing in of either party, she goes and gets herself hand-fasted -- to Jake! Joined, cursed, Ella finds herself suddenly completely aware of Jake in ways she'd never been before. Her thoughts are consumed by him day and night and all signs point to the obvious: She is most definitely falling for him. But Ella is certain her newfound feelings for Jake can't be real -- they're fake, fabricated, nothing more than a horrid result of the binding spell he had read while their hands were joined by the cords. Or so she tells herself... Until the night before their best friend's wedding when Jake makes a surprising confession that levels the playing field ...and she begins to believe that maybe her feelings for him are the real deal after all.
