But thanks to a poorly timed air traffic controllers strike, she finds herself alone in the boonies. As night falls, a shotgun she doesnt know how to use and a flimsy wooden door are the only things standing between her and the vicious, hungry beast outside. The scent of a woman nearby beckons research scientist Tarik Evert, sends him staggering outside into the cold. He doesnt remember how he wound up at her door, naked and shivering. And hes not sure what is about to happen if she lets him inside. He only knows one thingthe fierce, unrelenting hunger that brought him to her in the first place. And thats just the beginning of their troubles...
