

Wild Shores (First Responders)

Gillian Gem Martin is the lead biologist at a wildlife sanctuary on the Northeast coast and head of the Wildlife Emergency Response Team called in when catastrophes, man-made or natural, threaten the endangered species she studies. Austin Germaine is a troubleshooter, the hired gun for a big oil company, whose job is to help contain leaks and prevent media coverage of a pending disaster until the danger can be eliminated. If it can be. When Gem and Austin meet by chance in the midst of an approaching hurricane, neither expects their immediate connection to lead them into uncharted territory as wild as the looming storm. When word of the spill gets out, Gem and Austin find themselves reluctant allies in a race against time to divert the spill and save the wildlife refuge and its endangered inhabitants all while battling an attraction as unlikely as it is powerful. A high-stakes race against time, the forces of nature, and the strongest power of all the desire of the human heart. A First Responders Novel
